

## Frequently Asked Questions (FAQ)

### **My organization does not meet some of the Funding Priorities. Are we still eligible to apply?**

An organization is not required to meet the Funding Priorities to apply but must meet all other eligibility requirements. However, organizations that meet any of the Funding Priorities will be prioritized for grant funding.

### **My capacity-building project isn't listed as an example in the Selection Criteria. Can I still include it in my application?**

Absolutely. The examples given are suggestions and don't represent all of the capacity building projects CFT may fund. If you'd like to discuss your project with a program officer before you apply, please schedule office hours by [clicking here](#).

### **If my organization is selected for funding, will CFT fund all of the capacity-building projects I include in the application?**

If your organization is funded, we cannot guarantee that our funding will cover all of the expenses from each of your submitted capacity building projects. We ask that organizations prioritize their capacity building projects so we can focus our funding on top priorities first.
